Preface

China now has over 6,000 wood flooring manufacturing companies with output reaching 330 million m² in 2006. The rapid development of China's wood flooring industry also drives the increase of flooring exports from China. At present, China has become a net wood flooring exporter with products exported to all around the world.

In order to promote the cooperation between Chinese wood flooring manufacturers and overseas companies regarding flooring trade, China Wood International (CWI) has published *2008 China Wood Flooring Export Directory*. The preceding 2006 and 2007 editions of the Directory both received recognition and praises from overseas flooring importers and dealers.

In the 2008 Directory, we have collected and included the verified facts and figures of 200 plus excellent wood flooring manufacturers from over 3,000. The selected flooring companies can, to a large extent, represent the level of development of Chinese wood flooring manufacturers and reflect the status quo of China's wood flooring industry.

We hope the Directory will serve as an efficient information platform, through which overseas companies can find satisfying Chinese wood flooring manufacturers and then procedure quality wood flooring from China.

With a history of over 700 years, Nanxun town is located in the north of Zhejiang Province, on the south bank of Taihu Lake and in the hinterland of Yangtze River Delta, about 100 km away from big cities such as Shanghai, Suzhou, and Hangzhou.

Nanxun now has become the country's largest solid wood flooring production and distribution center with an extensive range of professional divisions. In 2006, the output of lacquered solid flooring accounted for 74.7% of the country's total and the market share of solid wood flooring reached 60%. In Oct 2006, Nanxun was awarded the title of "Capital of China Solid Wood Flooring", since for several consecutive years, the production and sales volume of solid wood flooring of Nanxun made up over a half of the country's total.

Capital of China Solid Wood Flooring

Nanxun - Zhejiang - China

▲ The factory occupies more than 60,000 m², annual capacity is 1.2 million m². Mostly, we export to Ireland, Netherlands, UK, Germany, France, other European countries and North America.

▼ Our factory consists of sawmill, kiln dried chamber, production line, finishing line and other good relative equipments. All facilities are from German, Italy and Taiwan area.

▼ Our products are solid wood flooring and lamella of the top layer, with the CE mark, and the PEFC & FSC certifications are in the process. Currently we mainly use oak, maple, ash and birch sourced from Russia and Europe.

The Booming Nanxun Flooring Industry

The Booming Nanxun Flooring Industry With a history of over 700 years, Nanxun town is located in the north of Zhejiang Province, on the south bank of Taihu Lake and in the hinterland of Yangtze River Delta, about 100 km away from such big cities as Shanghai, Suzhou, and Hangzhou. Even in the Southern Song Dynasty (1127~1279), Nanxun town was reputable as "a gathering land of businessmen of all walks"; today "Nanxun business spirit" is being greatly carried forw...>

Your Given Trust is Our Responsibility

ELEGANT LIVING
ELEGANT LIVING CORPORATION

NEW ELEGANT LIVING TIMBER MANUFACTURING (ZHONGSHAN) LTD.

ELEGANT LIVING CORPORATION® is a privately owned and operated company. We are headquartered in Keelung, Taiwan, with manufacturing facilities and marketing networks in mainland China.

We are a young, dynamic company with a strong commitment to the future. The machinery that we employ is state-of-the-art equipment, operated by highly dedicated and trained workers. We also have a team of very experienced engineers and service staff to provide the necessary technical and after sales support to our customers. We have successfully passed and obtained ISO 9002 certification back in July of 2000 and received numerous quality awards since then. Our products are also now CE certified as well.

Currently, we have three factories located both in southern as well as northern China and employing over 1200 workers. The combined capacity of these factories is around 5,000,000 square meters (approximately 53,800,000 square feet) a year. Our products are sold both domestically within China as well as exported to overseas markets.

Domestically, our flooring products are now sold through a network of franchised stores located throughout China — The current total is around 300 stores. Internationally, our products are sold to some of the most well known names in the industry, including Armstrong, Mannington, Tarkett, CCA Global, Columbia, World Flooring International, Johnson, etc.

Looking ahead, as a strong believer in ecology and in the importance of preserving our environment, our goal is to further design and develop our products with conservation in mind. We will continue to expand our existing line of plantation species. These species are all "exotic" in nature, but they will all be either plantation grown or otherwise meeting FSC requirements.

We look forward to sharing a bright and exciting future with you. To our mutual success!

1. Growing up from Hangzhou Singular Wood Industry Manufacturer which established in 1997, Hangzhou Singular Group Co.,Ltd is now a big group company with total area of 120,000 SQ.M located in a beautiful city --- Hangzhou. It is one of the first and best flooring manufacturers in China which is specialized in both laminated flooring and engineered flooring.

2. Three-dimensional structure,super stabilize. The new structure craft compounds made the high-quality parquet, innovated 3+3 three-dimensional structure, bearing layer imbed different strips, form vertical, horizontal 3 layers of omni-directional associations, this patent techology can greatly enhance the products' anti-distortion ability, thus parquet is far more stable than other normal ones under variable condition. (2 kinds of structure parquet)

Three-dimension Parquet-I

Structure

- 1 Wear-resistant Varnish Layer
- 2 Natural Veneer
- 3 Anti-distortion Veneer
- 4 Consolidation Tendon
- 5 Moisture proof MDF(E1 Class)
- 6 Anti-distortion Veneer
- 7 Anti-distortion Veneer

Three-dimension Parquet-II

- 1 Wear-resistant Varnish Layer
- 2 Moisture Proof HDF(E1 Class)
- 3 Anti-distortion Veneer
- 4 Natural Veneer
- 5 Anti-distortion Veneer
- 6 Balancing real wood Tendon
